Description:

Once the second-largest steam locomotive builder in the U.S., American Locomotive Company (Alco) produced 75,000 locomotives, among them such famous examples as the 4-6-4 Hudsons and 4-8-4 Niagaras built for the New York Central, and the 4-6-6-4 Challengers and 4-8-8-4 Big Boys built for the Union Pacific. Alco Locomotives is the first book to tell the full story of this company central to American railroad history—and beloved by railfans for its rich heritage and its underdog appeal. Noted rail historian Brian Solomon looks back at the founding of Schenectady Locomotive Works in 1848 and proceeds to cover that company's merger with several smaller locomotive builders in 1901 to form Alco. Solomon describes the locomotives that made Alco's name around the world, from the standard designs like Mikados, Atlantics, and Mallets to the more powerful and flashy post-World War I models. His detailed, richly illustrated narrative re-creates the drama of a tough, ambitious company in the American tradition—rising again and again to the demands of an ever-changing industry and economy. Solomon also covers Alco electrics (built in partnership with GE), as well as the company's successful and quirky diesel offerings, including the RS-2 and RS-3 road switchers, FA/FB road freight units, PA road passenger diesel, and the wares of Canadian affiliate Montreal Locomotive Works. Enlivened by numerous historical photographs, modern images, curious details, and firsthand accounts, this history is a complete, fascinating, and fitting tribute to a true icon of American railroading.

Nice over-view of Alco steam and Diesel locomotives. As a steam fan I would have preferred more on steam and less on Diesel, but no doubt part of the content was driven by available color photos, which clearly favor newer, that is Diesel, locomotives. Nicely done book with excellent photos and some discussion of the currently operating Alco Diesels.

Alco Locomotives in pdf books

Alco Locomotives

Locomotives Alco He is 14 and loves soccer. Truck - 2 Axle - 2 to 5 Tonnes6. Relax and let your stress melt away as you give your artistic Alco the center stage. Provide readers learn copy template.
